SCS Women in Tech
Mentor Guidelines

Presented by the School of Computer Science Office of Alumni Engagement

The SCS Women in Tech Summer Mentorship Program allows alumnae to share their experiences with current SCS interns to help prepare the next generation of women in various industries. This program lasts the summer from late May to August.

Expectations for Mentors:
- Work with matched intern to complete the summer goals form
- Provide contact information (phone & email) to mentee
- Sign the communication agreement form
- Meet for a meaningful connection with mentee at least twice during the summer (virtually or in person)
- Provide constructive guidance and practical feedback to mentee
- Help mentee successfully achieve all goals outlined at the beginning of the program
- Complete the post program online evaluation survey
- Nominate other mentors who would enjoy the program
